### **- Our Philosophy –**

We have been in business since 2004 and it's become clear in the last couple of years that people want digital images. However, we're also old fashioned in thinking that quality prints still have a place in this world. So it is our philosophy that every customer will receive a full set of digital negatives, as well as a set of professional 5x7 prints.

We have also drastically reduced our pricing on professional prints, canvases etc. Due to the fact that each customer receives a set of digital negatives and 5x7 professional prints, we greatly appreciate any additional prints that you purchase through us. Our print pricing is a reflection of that.

Also, because our process is streamlined, expect to receive your digital images within three days after your photo shoot! We transfer digital images by uploading them to our website, rather than shipping a CD to you.
